Request Type: New Access Cancel

UnitedHealth Group is committed to protecting protected health information (PHI) including employee benefit plan data in its systems. Prior to submitting this request, view company policies on [Minimum Necessary Requirements](#)

Request For: Platform
Platform: MS
Windows
MS
Next

Environment:
Resource:
User ID:
Group(s):

Select your “User ID i.e. MS ID” then

Click “Next”

In search bar, Type “GitHub_users”

You may need to scroll to find the exact group name. Once found Select “GitHub_Users” group then click on the red circled arrow and click Next. After that, on the next page, provide a business reason for access and click on “Submit”.

*Once a request is submitted, it will take a day or two for access to be given to the GitHub environment and then you would need access for [AES](#) folder. So, drop a mail to BDPaaS Team for the same.
